

**Postdoctoral Positions are available
in the Calderwood Lab,
Dept. of Pharmacology,
Yale University School of Medicine,
New Haven, CT, USA**

The Calderwood lab is seeking a postdoc with interests in cell adhesion and cytoskeletal signaling and/or kinase function. Applicants should have a Ph.D. with a strong background in biochemistry, cell biology, structural biology or signal transduction research.

Please see <http://www.yale.edu/calderwoodlab/LabSite/Welcome.html> for more information on the Calderwood lab research.

Interested candidates should send a current CV, a statement of research interests, and the names and contact information of three references to david.calderwood@yale.edu

Yale University is an Equal Opportunity/Affirmative Action Employer and strongly encourages applications from women and minority candidates.
