

Associate membership

£22

Associate membership is open to those with a background in molecular bioscience now working in related professions. These may include science teaching, science management/administration, science editing/writing, scientific sales, scientific outreach and other similar careers. Scientists taking a break from their career or seeking employment in this field may also join in this category.

Benefits include:

- Discounted registration fees at Biochemical Society events
- Opportunities to submit proposals for Biochemical Society events
- Carer Support Grants, to assist with the additional care costs arising from participation in a Biochemical Society event or course, and Stay Connected Bursaries, for those currently on a career break or recently returned to work and attending Society events or courses
- Access to careers information
- Automatic membership of The Federation of European Biochemical Societies (FEBS) and access to FEBS Fellowships
- Opportunities to feed into the Society's policy activities through our Policy Network
- Opportunities to volunteer at public engagement and careers events
- Monthly Members' News bulletin
- Invitations to member receptions and networking events
- Access to free courses and events at selected times
- Personal online access to the *Biochemical Journal* and *Biochemical Society Transactions*

Please note: Associate members are NOT eligible to apply for any Society grants, with the exception of Carer Support Grants and Stay Connected Bursaries

Membership

Join our network of 7,000 members

Full membership

£84

The Society welcomes members from all over the world. Early Career membership brings all the benefits of Full membership at a significantly reduced cost. Full membership is for those who obtained a postgraduate qualification more than 10 years ago. Applicants are entitled to apply for Early Career membership for 10 years from the date of gaining a postgraduate qualification in the molecular biosciences.

Early Career membership

£47

Undergraduate membership

£16

Undergraduate membership is open to anyone studying for a first degree in a subject related to the molecular biosciences.

Postgraduate membership

£27

Postgraduate membership is open to anyone who has gained their first degree and is studying for a postgraduate qualification (PhD or MSc) in the molecular biosciences.

Benefits include:

- Up to £750 General Travel Grant to help with the costs of attending a scientific conference, training course or to visit other laboratories
- Bursaries to attend Biochemical Society scientific meetings, training events and online courses of up to £300
- Carer Support Grants, to assist with the additional care costs arising from participation in a Biochemical Society event or course, and Stay Connected Bursaries, for those currently on a career break or recently returned to work and attending Society events or courses
- Up to £1,500 available for members organizing a seminar series in your institution
- Discounts on registration fees at Biochemical Society events
- Apply to become a Local or Industry Ambassador at your institution or organization
- Discounted registration fees for Biochemical Society and Royal Society of Biology training courses
- Access to free courses and events at selected times
- Opportunities to submit proposals for Biochemical Society events
- Opportunities to feed into the Society's policy activities through our Policy Network
- Automatic membership of The Federation of European Biochemical Societies (FEBS) and access to FEBS Fellowships
- Monthly Members' News bulletin
- Invitations to member receptions and networking events
- 50% discount on first two years' membership subscription of the Royal Society of Biology
- Savings of up to £375 on Gold Open Access article publishing charges for Portland Press journals
- Personal online access to the *Biochemical Journal* and *Biochemical Society Transactions*
- Grants of up to £2,000 to support members from a lower-income economy visit a host laboratory to learn methods, or support members to visit a lower-income economy to disseminate knowledge and build research capacity

Benefits include:

- Iron-on Biochemical Society woven patch for your laboratory coat
- Bursaries to attend Biochemical Society events of up to £300
- Grants for student societies
- Discounted registration fees for Biochemical Society events
- Discounted registration fees for Biochemical Society and Royal Society of Biology training events and courses
- Carer Support Grants, to assist with the additional care costs arising from participation in a Biochemical Society event or course, and Stay Connected Bursaries, for those currently on a career break or recently returned to work and attending Society events or courses
- Priority access to Summer Vacation Studentships
- Access to careers information, including a copy of the *Next Steps* and *Biochemists in Industry* careers booklets
- Access to free courses and events at selected times
- Apply to become a Student Ambassador at your institution
- Opportunities to feed into the Society's policy activities through our Policy Network
- Opportunities to volunteer at public engagement and careers events
- Automatic membership of The Federation of European Biochemical Societies (FEBS) and access to FEBS Fellowships
- Monthly Student Members' News bulletin
- Personal online access to the *Biochemical Journal* and *Biochemical Society Transactions*
- Savings of up to £375 on Gold Open Access article publishing charges for Portland Press journals

Benefits include:

- Access to a range of grants to support your research and travel as well as sponsorship of events
- Up to £750 to help with the costs of attending a conference, training course or lab visit in the UK or internationally
- Discounted registration fees for Biochemical Society events
- Bursaries to attend Biochemical Society scientific meetings, training events and courses of up to £300
- Up to £1,500 available for members organizing a seminar series at your institution
- Carer Support Grants, to assist with the additional care costs arising from participation in a Biochemical Society event or course, and Stay Connected Bursaries, for those currently on a career break or recently returned to work and attending Society events or courses
- Discounted registration fees for Biochemical Society and Royal Society of Biology training events and courses
- Access to free courses and events at selected times
- Automatic membership of The Federation of European Biochemical Societies (FEBS) and access to FEBS Fellowships
- Opportunity to propose an Early Career Life Scientist conference
- Access to careers information
- Opportunities to feed into the Society's policy activities through our Policy Network
- Monthly Student Members' News bulletin
- Apply to become a Student Ambassador at your institution
- Personal online access to the *Biochemical Journal* and *Biochemical Society Transactions*
- Savings of up to £375 on Gold Open Access article publishing charges for Portland Press journals
